AND WELL-BEING

4 QUALITY  
EDUCATION

5

GENDER  
EQUALITY

# CABANGCALAN ELEMENTARY SCHOOL

Cabangcalan Elementary School is located in Pampanga and is composed of children who are at risk of dropping out of school due to the ongoing pandemic. Some children face numerous problems like living in a makeshift home near the river. Through exchange opportunities with Durman High School, they aim to learn more about well-being during the COVID-19 and learn the different culture and traditions of Singapore through virtual learning. The school teacher believes this event will inspire the children to stay in school during and even after the pandemic.
